Text of the report:

The Management Board of Inter Cars S.A. (the “**Company**”) announces that today, due to disruption of the information and communication technology (ICT) systems operated by the InterCars Group, the Company’s and its subsidiaries’ sales systems became unavailable. Currently, work is under way to determine the extent of the problem and to restore the systems’ functionalities.

Most likely, the disruption has been caused by the recent international hacking attack widely reported on today by the governments in a number of countries and by the world’s media.

The Company has notified the Polish law enforcement agencies of the incident.
